Title : For Login No Password Is Required.

Attach Add a child issue Link issue ...

Complexity level Priority 1 TA Oct 10, 2024

Description

Description: When attempting to access Facebook, the system does not prompt for a password and allows direct access to the account, raising significant security concerns.

Steps to Reproduce:

1. Open Google Chrome.
2. Navigate to [Facebook - log in or sign up](#).
3. Click on the Facebook login page.
4. Observe that the system automatically logs in without prompting for a password.

Expected Result: The user should be required to enter the account password to log in.

Actual Result: No password is requested; the user is automatically logged in.

Axis AHA! - Your virtual banking assistant for instant support

How to Get Started

- Accessing Axis AHA!**: Visit Axis Bank's homepage and click on the Axis AHA icon.
- Interaction**: Use text or voice to interact with the chatbot.

Key Features:

- Instant Access**
 - Available directly on Axis Bank's homepage
 - No additional apps required
- 24/7 Availability**
 - Assistance available round the clock
- Multi-language Support**
 - Available in English and Hindi
- Banking Services**
 - Fund transfers
 - Bill payments and recharges
 - Manage card limits, block/unblock cards
- Information Repository**
 - Access information on Axis Bank products and services
- Customer Support**
 - Connect to customer service portal
 - Chat with a customer service executive

Debit Card block and replace request successful!
BLOCKED CARD: Liberty Debit Card
3000000000 8884
NEW CARD: DILIGHT DEBIT CARD
NEW CARD FEE: ₹270 (excl. of GST)
REFERENCE NUMBER: n0M3n9w3t9v9dP03
DATE AND TIME: Sep 17 2024 3:02:48 PM

Thank you for using Axis AHA! I can also help you out with following:
Card PIN Change Card Limit Change Manage Debit Card Connect with live Agent Report Fraud

31°C Haze 15:07 14-10-2024 ENG

The screenshot shows a Microsoft Teams meeting in progress. The top bar displays the meeting title "Microsoft Teams meeting" and the URL "teams.microsoft.com/v2/?meetingjoin=true#/l/meetup-join/19:meeting_OGlyZjViMzgtMDFiNi00Nzc5LWJkNWQtODI3ZDY2ZjlxZjM0@thread.v2/0?context=%7b%22Tid%22%3a%223edc...". Below the bar are standard Microsoft Teams controls for Chat, People, Raise, React, View, More, Camera, Mic, Share, and Leave. The main content area features a slide titled "Axis AHA! - Your virtual banking assistant for instant support" with sections on "How to Get Started" and "Key Features". It includes a screenshot of the Axis Bank website showing a successful debit card block and replace transaction. A reminder overlay for a meeting with "Harshit Sir" is visible at the bottom right. The bottom of the screen shows the Windows taskbar with various pinned icons and system status indicators like weather and battery level.

Navin Trainer

The image shows a dual-screen setup. On the left screen, a Zoom video conference is in progress. The participant list includes Shubhadip Paul, Abhipsha Sahoo, and Sushma Chilamakuri. The main video frame displays a person speaking. The Zoom interface includes standard controls for audio, video, participants, chat, and more. On the right screen, a Microsoft SQL Server Management Studio (SSMS) window is open, connected to a database named 'hellobase'. The Object Explorer sidebar shows the database structure, including various tables and views. In the central query editor, a T-SQL script is being run against the 'SHUBHADIP_EMPLOYEE1' table. The script inserts 15 rows of employee data. A message in the status bar at the bottom of the SSMS window indicates '0 rows' affected. The taskbar at the bottom of the screen shows the Windows Start button, a search bar, and pinned icons for File Explorer, WhatsApp, Microsoft Edge, and Google Chrome.

Sourabh Desai

This screenshot shows a Zoom meeting interface. At the top, there are tabs for 'Meeting' and 'Workplace'. The main window displays an Eclipse IDE session with Java code related to single inheritance. Below the IDE is a 'Console' tab showing the output of the code execution. The bottom navigation bar includes icons for audio, video, participants, chat, react, share, apps, record, and more. On the right side, there are participant thumbnails for 'Shubhadip Paul', 'Abhipsha Sahoo', and 'Sourabh Desai'. A green box highlights the 'Navin Trainer' thumbnail. The bottom status bar shows weather information (80°F, Mostly cloudy), a search bar, and system icons.

Axis Bank -QA Session - online

File Edit View Participants need to work on below activities:
Pre-req: Participants should have IRCTC account.
Activities:
1. High level scenarios for testing logging into the irctc website.
2. Detailed test cases with steps in test case format for validating login.
3. Give one RTM(Requirement traceability metrics) format

Case study2:
Participants need to check on below:
They have to see all the possible scenario for axis bank home page:
<https://www.axisbank.com/>

Case Study3:
Create an SQL table for AxisBank_customer and perform below activities:
1. Add the below mentioned attribute and add records for 20 customers:
customer_id, customerName, credit_limit, applicable, cvv, expiri_date,kycstatus.
2. Write the query for below:
-- Get the all data for the customer which has KYC ststus verified?
3. What is the average Balance limit for state (particular) state from the table?
4. What is the top 5th balance customer of having highest bank balance.
5. Calculate the balance who is done with KYC.
6. Calculate the balance who is not done with KYC.
7. Calculate the number of customer whose credit card/debit card is going to expire within 3 months.
8. Display the name of customer who has credit_limit more than 45000.
9. Display name of customer, who has expiry date after 2025 and having credit limit > 50000.
10. Retrieve the name of the customer who has lowest account balance amount.

Case Study3:
Create an SQL table for AxisBank customer and perform below activities:
1. Add the below mentioned attribute and add records for 20 customers:
customer id, customerName, credit limit, applicable, cvv, expiri date,kycstatus.
2. Write the query for below:
-- Get the all data for the customer which has KYC ststus verified?
3. What is the average Balance limit for state (particular) state from the table?
4. What is the top 5th balance customer of having highest bank balance.
5. Calculate the balance who is done with KYC.
6. Calculate the balance who is not done with KYC.
7. Calculate the number of customer whose credit card/debit card is going to expire within 3 months.
8. Display the name of customer who has credit limit more than 45000.
9. Display name of customer, who has expiry date after 2025 and having credit limit > 50000.
10. Retrieve the name of the customer who has lowest account balance amount.

Case Study4:
Automate the steps of the website through selenium with JAVA.

The screenshot shows the Eclipse IDE interface with the following details:

- Project Explorer:** Displays the project structure under "Axis_Testing1".
- Code Editor:** The active file is `FirstSelenium1.java`, containing Java code for Selenium automation. The code initializes a ChromeDriver, navigates to a login page, and sends keys to the username and password fields.
- Console:** Shows the terminal output of the application's execution. It includes logs from the Selenium WebDriver and CDP implementation, followed by the printed statements from the code: "Browser is opened" and "Open the username".
- Bottom Bar:** Includes a search bar, a toolbar with various icons, and system status indicators like battery level, temperature (28°C), and date/time (21-10-2024).

This image shows a Zoom meeting interface. The main window displays a shared screen containing a list of Selenium methods and a note about its installation. The list includes methods like Object, get, gettext, and findElement. A note states that Selenium will have only two things: selenium webdriver. To the right, a participant list shows five users: Shubhadip Paul, Pawan Mane, Pawan Mane, Vishnu Vardhan Kandadi, and Suyog Waghare. The participant Suyog Waghare is highlighted with a green border. The bottom of the screen shows the Zoom control bar with various icons for audio, video, participants, and other meeting controls.

This screenshot shows an Eclipse IDE workspace titled 'eclipse-workspace - AxisBank/src/test/java/JavaSeleniumTraining/AxisBank/MouseHoverHandling.java - Eclipse IDE'. The code in the editor implements a mouse hover action on a button using Selenium WebDriver and Actions. Below the editor is a terminal window showing the output of a Java application named 'Test1' running on a local machine. The terminal output includes the URL 'https://testautomationpractice.blogspot.com/' and the instruction 'Press a button!'. At the bottom of the screen, there is a Zoom video conference interface with various controls for audio, video, and sharing. The overall environment is a hybrid of a developer's workspace and a live training session.

The screenshot shows a Java project named 'AxisBank' in the Eclipse IDE. The 'MouseHoverHandling.java' file is open, containing code to perform a mouse hover on an element using Selenium WebDriver and Actions. A terminal window below shows the application running and pressing a button. The Zoom interface at the bottom indicates a video call is in progress, with options for audio, video, and sharing.

Shubhadip Paul Abhipsha Sahoo Mudhitha Madi... Suyog Waghhere Navin Trainer Chakradhar Kan...

Selenium will have only two things to do with installation
selenium webdriver

Thread.sleep: IT is just for waiting for some w/o any reason/condition

Implicit wait: Implicit wait is a wait which is used in selenium to ask the webdriver to wait for certain amount of time before it throws a "No such element exception"

Example: If we have declare around 10 seconds, it measn that your webdriver will wait for 10 seconds to load the elment of page, if they got it then good otherwise they can throw the error only after 10 seconds.

Syntax:
`driver.manage().timeout().implicitlywiat(TimeOut,TimeUnit.seconds)`

Ln 1213, Col 67 29,545 characters

```
1 package JavaSeleniumTraining.AxisBank;
2
3 import java.util.concurrent.TimeUnit;
4
5 import org.openqa.selenium.WebDriver;
6 import org.openqa.selenium.chrome.ChromeDriver;
7
8 public class ImplicitWaitHandling {
9     public static void main(String[] args) {
10         WebDriver d=new ChromeDriver();
11         d.get("https://testautomationpractice.blogspot.com/");
12         d.manage().timeouts().implicitlyWait(10, TimeUnit.SECONDS);
13         System.out.println("Hello world");
14     }
15 }
16
17 }
```

The method implicitlyWait(long, TimeUnit) from the type WebDriver.Timeouts is deprecated
2 quick fixes available:
Add @SuppressWarnings 'deprecation' to 'main()' Configure problem severity

File Edit View Case study1:

Participants need to work on below activities:
Pre-req: Participants should have IRCTC account.
Activities:
1. High level scenarios for testing logging into the irctc website.
2. Detailed test cases with steps in test case format for validating login.
3. Give one RTM(Requirement traceability metrics) format

Case study2:
Participants need to check on below:
They have to see all the possible scenario for axis bank home page:
<https://www.axisbank.com/>

Case Study3:
Create an SQL table for AxisBank_customer and perform below activities:
1. Add the below mentioned attribute and add records for 20 customers:
customer_id, customerName, credit_limit, applicable, cvv, expiri_date,kycstatus.
2. Write the query for below:
-- Get the all data for the customer which has KYC sttus verified?
3. What is the average Balance limit for state (particular) state from the table?
4. What is the top 5th balance customer of having highest bank balance.
5. Calculate the balance who is done with KYC.
6. Calculate the balance who is not done with KYC.
7. Calculate the number of customer whose credit card/debit card is going to expire within 3 months.
8. Display the name of customer who has credit limit more than 45000.

Rediff Mail Login Features Test.

+ Add

@ Apps

Description

Story

As a user, I want to log in to my Rediff Mail account so that I can check my emails and use other features

Test Scenarios

1. Login with Correct Credentials

Test logging in with a valid email and password. The user should be redirected to their inbox

2. Login with Incorrect Credentials

Test logging in with an incorrect email or password. The user should see an error message

3. Forgot Password

Test the "Forgot Password" link. The user should be able to reset their password using their email

4. Remember Me Option

Test the "Remember Me" checkbox. The user should stay logged in after closing the browser

5. Session Timeout

Test auto log-out after inactivity. After some time, the user should be logged out and asked to log in again

6. Captcha for Multiple Failed Logins

Test CAPTCHA after several failed login attempts to prevent bots

The screenshot shows the Jira interface during issue creation. A modal window is open, allowing the user to pin fields to their view. The pinned field shown is 'Assignee'. Other pinned fields include 'My pinned fields' and 'Actions'. The main workspace shows the creation of an issue titled 'ABZ-2: Title: The Users are unable to join with valid login credentials'. The issue is categorized under 'TO DO' with a priority of 'Medium'. The description states: 'Title : Unable to log in with valid credentials on Rediff Mail ID : BUG-01 Reported By : Shubhadip Paul. Date : 05.11.2024 Steps to Reproduce : Navigate to the Rediff Mail login page. Enter a valid...'. Below the issue details, there are buttons for 'Open preview', 'Copy link', and a 'Jira' icon. The bottom of the screen features a comment input field with placeholder text 'Add a comment...', and a notification message: 'You've created "ABZ-2" issue'. The URL at the bottom is <https://shubhadippaulmtb.atlassian.net/browse/ABZ-2>.

Title: The Users are unable to join with valid login credentials.

+ Add Apps

Description

Title: Unable to log in with valid credentials on Rediff Mail

ID: BUG- 01

Reported By: Shubhadip Paul.

Date: 05.11.2024

Steps to Reproduce:

1. Navigate to the Rediff Mail login page.
2. Enter a valid email address in the "Email" field.
3. Enter a valid password in the "Password" field.
4. Click the "Sign In" button.
5. Observe that the login attempt fails, and the user remains on the login page without any error message or redirection.

Expected Result:

The user should be successfully logged in and redirected to their inbox.

Actual Result:

Login fails without an error message or any redirection, and the user remains on the login page.

A screenshot of a Jira board titled "DTAB board" for the project "Database Testing Of Axis Bank". The board has three columns: "TO DO 4", "IN PROGRESS", and "DONE".

The "TO DO 4" column contains two items:

- A card titled "Axis Bank Customer Database Testing And Handling." under the "Database" epic. It has a checkmark next to "DTAB-1" and a "MM" label.
- A second card with the same title and details, also under the "Database" epic.

The "IN PROGRESS" and "DONE" columns are currently empty.

At the top of the screen, there is a video conference interface showing a participant named "Shubhadip Paul". The browser address bar shows the URL <https://shubhadippaul@10.0.2.15:8080/jira>. The Jira header includes links for "Jira", "Your work", "Projects", "Filters", "Dashboards", "Teams", "Plans", "Assets", "Apps", "Create", and search functions. A "Start stand-up" button is visible in the top right.

The taskbar at the bottom of the screen shows various application icons, and the system tray indicates it's 14:43 on 06-11-2024, with the weather being 30°C and sunny.

Description

Dear Mansi Santosh Mahale,

I hope this message finds you well.

I am reaching out to assign you a task involving the execution of test cases related to "Axis Bank's Database Testing" processes. This work is essential for maintaining our quality assurance standards and ensuring seamless functionality across our systems. Here are the details and guidelines:

Task Overview:

Objective: To execute and validate test cases based on Axis Bank's standards.

You have to manage and insert the "Records for 20 customers".

Tools Needed: Jira Software Tool , Microsoft SQL Server Access.

Expected Outcome: Successful completion of the operation with documentation of results and any identified issues.

and mention Expected results - Actual Results - Status

Description

Dear **Middela Sathvika**,

I hope this message finds you well.

I am reaching out to assign you a task involving the execution of test cases related to "Axis Bank's Database Testing" processes. This work is essential for maintaining our quality assurance standards and ensuring seamless functionality across our systems. Here are the details and guidelines:

Task Overview:
Objective: To execute and validate test cases based on Axis Bank's standards.

SQL Queries: Develop and execute SQL queries to:

- Retrieve all customers with verified KYC status.
- Calculate balances for customers who have completed KYC.
